Step-by-step instructions

It's easy. Use the *Google Lens* application.

Step 1: Download and install the application from *Google Play* or *App Store*.

Step 4: Point the camera at the object (or the photo) and tap the shutter button.

Step 5: Similar objects appear on the screen. Choose the one that resembles our photo best.

Step 6: Scroll down - below the image you will find information about its name and description. In case the information is in English, but you need the name in your language – copy the name.

Did you find these results Yes No

Step 7: Open a translation application (eg Google translate).Step 8: Set the language in which you want the name of the animal to be translated to.
